VS-550E
Phoenix Dictation Server

what it is

The VS-550E is an economy model in the Phoenix Dictation Server product line. It comes with the Phoenix Core Dictation software already installed and Microsoft Windows fully configured for optimal performance.

Everything you need is provided with the server. In addition, a second drive holds a backup of your data that is made each night using the Windows Backup feature.

We realize it takes time to learn a new software suite, so our techs are available to help you with installation and configuration every step of the way.

Make your dictation and transcription solution the Phoenix VS-550E!
